

# **BERA** PARKING MARKER *pro*

**BERA Parking Marker Pro**

**BERA<sup>®</sup>**

### BERA® Parking Marker Pro

Parkings and driveways using BERA Gravel Fix® Pro gravel stabilisation can be organised by the use of BERA professional markers. They are made of polypropylene and available with or without reflection. Easy to install without any special tools.

BERA Parking Markers are fully recyclable and manufactured under the same sustainable conditions as for BERA Gravel Fix®. Using Green power and employing disabled staff ensures our strive to care about people and environment.

### TECHNICAL SPECIFICATIONS

Product	: BERA® Parking Marker Pro
Colour	: Black, white or RAL code
Reflection	: Available
Material	: Polypropylene
Weight	: 90 grams
Dimension	: Ø 10 cm
Product Safety	: REACH
Product Standard	: ISO9001
UV and frost	: Protected
Packing	: 70 pieces / box

### Installation Instructions

Set the area for each parking lot and identify where the marker will be positioned.

Detail (a) The selected cells should be kept without gravel, whilst the surrounding cells are filled up to the top of the sheet. A 42 mm tube can be used for achieving this.

Detail (b) Replace the 42 mm tube with the bottom part of the marker, open side facing upwards

Detail (c) Put the upper part of the marker on top of the bottom part and push it strongly and fully downwards fixing the marker inside the cell.

Top up gravel as per the instructions provided in our BERA Gravel Fix® catalogue and technical documentation, surrounding the marker fully and covering the Gravel Fix sheets.
